## EXPERIENCE

### ANT Neuro GmbH, Berlin — *Technical Support Specialist*

NOV 2023 - PRESENT

I am responsible for all support questions from customers related to our products; EEG, TMS, and respective softwares. I coordinate the repairs or replacements, give explanations and advice on how to use the equipment.

### Apexar Technologies S.A., Berlin — *Technical Consultant and Project Monitor*

MAR 2022 - NOV 2023

I coordinated engineering projects spam Biotech, MedTech and IoT. I was responsible for the technical documentation of the company. I gave training to partner companies.

### Apexar Technologies S.A., Buenos Aires — *Software Engineer*

JUN 2021 - MAR 2022

I developed and published mobile apps for Android and iOS. I mainly worked with incubator devices that detect sterilization outcomes, among other Biotech and IoT projects.

### Air Liquide, Buenos Aires — *Responsible for Telemonitoring Programs*

APR 2021 - JUN 2021

I lead the sleep, ventilation and oxygen therapy telemonitoring programs and supervised intern operators.

### Air Liquide, Buenos Aires — *Telemonitoring Intern*

MAR 2020 - APR 2021

I maintained personalized contact with patients to enhance adaptation of therapy and awareness of their pathology.

### Dream and Memory Laboratory of ITBA, Buenos Aires — *Research Assistant*

MAR 2020 - APR 2021

Research on slow wave activity and K-Complex. Development of machine learning detection algorithms. Polysomnography acquisition and data analysis.

## EDUCATION

### Buenos Aires Institute of Technology, Buenos Aires — *Biomedical Engineering*

MAR 2014 - MAR 2021

Dissertation: “Detection of K-Complexes and its role in the consolidation of the declarative memory during sleep”. As part of my studies, I did a six month Exchange Program in Lisbon at Instituto Superior Técnico.

### Colegio Labardén, Buenos Aires — *High School*

MAR 2007 - DEC 2013

Natural Sciences orientation. Graduated with Honors Diploma.
